**MOJO HAS BEEN WORKING (VERY HARD) !!**

Brisbane's own master of blues and roots music MOJO WEBB is set to release his long-awaited and highly-anticipated debut album "THE BURDEN". This amazing recording features fourteen songs composed, recorded, mixed and performed entirely by Webb. The CD highlights not only his incredibly soulful voice but also his multi-instrumental prowess. Every note on the CD - guitar, harmonica, saxophone, bass and drums are all played by Mojo! This is a landmark recording which has been a very long time coming. Thirty-two year-old Mojo has been a mainstay of the local music scene for almost fifteen years and this is his first recording under his own name! Webb is now ready to take on the world and if this album is anything to go by, it won't be long before music lovers everywhere know a great deal more about our own Mojo Webb. The album will be in stores soon, but first -
